Joël Zwiers (2000) is currently studying Real Estate at Fontys in Eindhoven. In August 2021, he moved to Rotterdam to follow the minor-course Project Development in Real Estate at the Rotterdam University of Applied Sciences. He will start his internship at BLOC in February. This minor has inspired Joël to dive into the world of project and concept development.

Especially the communicative and creative side of the real estate sector interests him. That is why he chose BLOC to complete his internship.

Joël is currently in the third year of his real estate course, and he wants to obtain more specific knowledge about the project development branch within the world of real estate. He can't wait to start working at BLOC and apply his acquired knowledge in practice!

Within BLOC, Joël will be working as a development intern. He will be active in a wide range of projects.
