

**CURRICULUM VITAE** 

# SANDER VAN DER WAL MA

Date of birth / 12<sup>th</sup> May 1976 Place of Birth / Delft Telephone / 06 836 062 00 Email / Sander@bloc.nl Web / www.bloc.nl

Sander van der Wal (b. 1976) studied public administration, specialising in the challenges and issues that play a role at the interface between the public and private sectors. Following a short career as a sailor (2001-2004), he worked from 2004-2009 as an international innovation project manager and was a member of the management team at Science Alliance. From the end of 2009 until 2013 he worked at the Kennisalliantie Zuid-Holland (Knowledge Alliance South-Holland) as senior project leader and water team manager. From 2014 he was one of the first employees at the new regional development agency for South Holland, InnovationQuarter, where he was cleantech programme manager and senior business developer. On 1 January 2017, he joined BLOC.

Sander ensures that innovations, concepts and collaborations move beyond the idea phase to actually become realised. With a keen eye for results, he creates sustainable collaborations with impact. Based on thorough analysis, he combines vision with strategy and strength of execution with a strong focus on doing, so that everything discussed gets dealt with. Sander is able to add significant energy to a collaboration and to connect with skippers and welders just as easily as with CEOs. He is strongly driven by new economic opportunities that address the major societal challenges of our time.

#### WORK EXPERIENCE

2017 – present	Partner at BLOC
	$BLOC\xspace$ is a creative developer and works on radical concepts at the
	interface between energy, tourism, living and working.
2014 – 2016	Programme Manager/Senior Business Developer
	InnovationQuarter
	InnovationQuarter is <i>the</i> regional development agency for South Holland. It finances innovative and fast-growing companies, assists
	foreign businesses in setting up in the province and organises collaboration between entrepreneurs, knowledge institutions and the
	government.
2009 – 2013	Senior Project Leader & Water Team Manager
	Kennisalliantie South-Holland
	The objective of the Kennisalliantie was to realise a stronger
	knowledge economy in South Holland. Activities included the
	promotion of innovation projects and programmes in which market
	players, governments and knowledge institutions work together towards a faster and more innovative way of solving social issues.
2004 - 2009	Project Manager (International) Innovation & Member MT/Interim
2004 – 2009	Project Manager (International) Innovation & Member MT/Interim Director Science Alliance BV
2004 – 2009	Director Science Alliance BV
2004 – 2009	Director Science Alliance BV Science Alliance was an intermediary organisation that connected
2004 – 2009	Director Science Alliance BV
2004 – 2009	Director Science Alliance BV Science Alliance was an intermediary organisation that connected science and the marketplace, to create innovative business

### Education and training

Education	
1995 – 2001	Political science/public administration, University of Amsterdam
1988 – 1995	Murmellius Gymnasium, Alkmaar
Courses and training	
2012	'Young Executives Programme', de Baak
2011	'Alliance Management', SIOO (inter-university vocational school for change and organisational processes)
2011	'Getting Things Done', Meereffect
Publications	
2011	"De bio-based economy in Zuid-Holland: vijf stappen voor
	versnelde groei"
	Authors: S. van der Wal, D.F. Broens, T. Bakker and Th. Noordman.
	Published by Kennisalliantie ZH & LEI Wageningen URL:
	http://edepot.wur.nl/184706
2010	"Innovation and growth potential of European regions: A meta-
	multicriteria analysis"
	by F. Zwetsloot, P. Nijkamp and S. van der Wal (co-author).
	Published in "European Planning Studies", Vol.18, no. 4, April 2010
2007	"Connecting science and society"
	Co-author, edited by in 't Veld & Zwetsloot. ISBN 978-90-811910-
	1-2.
1998	"De sorry-democratie", article about the Brinkman affair
	Publisher van Gennep, Ed. van Thijn et al., ISBN 90-5515-209-9

### PROJECTS (A SELECTION)

Advisor and advocate of a 'coalition of the willing'. Ownership and commissioning organised for this group of companies and knowledge institutions, through the organisation of a regional triple helix "Energy Innovation Board". The assignment is to create a final view and work programme for the regional energy system of the future, in which the economy and climate go hand in hand. Partners: TNO, Stedin, Siemens, Engie, Alliander, Province of South Holland.         2016       Virtual Power Plant Rotterdam         Advocate of the partnership between Siemens, TNO, Rotterdam City Council, Lyv, and M4H to realise a smart grid in the Mervevier port in Rotterdam. Inplementing and learning the new USEF model and associated innovative revenue models was central to this.         2016       Innovation Programme Dutch Windwheel         Quartermaster of the public-private consortium that will solve the Dutch Windwheel Corporation, Arup, Mammoet, Spie, TNO, ECN, Deltares, Evides, BAM, DuraVermeer, Eneco, Huawei, Siemens, PNO, InnovationQuarter.         2016       Roadmap Next Economy Member of Smart Energy Delta workgroup.         2016       Energy Innovation Delta Merkeroup.         2016       Energy Innovation Delta Merkeroup.         2016       Energy Innovation Delta Moorkgroup.         2016       Energy Innovation Delta Moorkgroup.         2016       Energy Innovation Delta Board workgroup.         2016       Roadmap Next Economy Member of Energy Innovation Delta Board workgroup.         2015       The Green Village Advisor and advocate for 'The Green Village' consortium; TU Delft, GasTerra, Alli	2016	Smart Multi Commodity Grid (working title) South-Holland

		Development' in circular business.

2015	Delphi Energy transition
	Member of the Delphi energy transition team: qualitative research
	into the non-technological aspects of energy transition. More than
	20 thought leaders, captains of industry and cross-thinkers were
	questioned about their views on this subject. Collaboration between
	RoyalHaskoningDHV and InnovationQuarter.
2015	7 Square Endeavour
	Advisor/evaluator of the '7SE' partnership with the objective of
	achieving radical sustainability for the Schouwburgplein in
	Rotterdam. Acted as advisor, evaluating the collaboration up to that
	moment and the provision of advice regarding next steps.
2015	Blueprint for a Green Park
	Advisor for a consortium of businesses and knowledge institutes who
	wanted to make their science park more sustainable. Explored the
	possibilities of realising this ambition. with, amongst others, TU
	Delft, Exact, The Datacenter Group, 3M and Deltares.
2014	Programme Manager Maritime Delta
	Responsible for the implementation of maritime cooperation to
	further strengthen the regional maritime sector. Developed lines of
	action for innovation, talent and marketing. Collaboration between
	regional and local governments, small and medium-sized businesses,
	'anchor companies' and maritime knowledge institutions.
